

Venue: Diamond 1 Hall, Hotel Nikko Jakarta

Date: 7th March, 2007 at 08:15 A.M.

**Organized by Badan Pusat Statistics (BPS),
and**

**The Project for Developing the Information System of
Small Area Statistics,
Japan International Cooperation Agency (JICA)**

Why this seminar?

Although BPS has improved the capacity of enumeration and tabulation for various statistical surveys as well as for censuses by own efforts, Indonesia has not yet possessed enough knowledge and techniques to construct an information system of small-area statistics and to prepare statistical data derived from the system. This Seminar introduces wide range of the users the usefulness of those small area statistics which will be prepared and provided during the period from August 2006 to July 2008 by the Project for Developing the Information System of Small Area Statistics.

Small Area Statistics

"Small area" in the Project refers to the areas including "Grid Squares" and "Census Blocks" developed for statistical purposes as well as administrative areas such as Kabupaten/Kota (regency/municipality), Kecamatan (district), and Desa (village) under a Propinsi (province). The Small Area Statistics refer to the statistics compiled or prepared on the basis of those small areas described above.

Participants

BPS and JICA invite administrators, policy makers and researchers who are interested in Small Area Statistics.

RSVP: Erdiatun (2134), Nurwati (2133), Mimik (3142)

Tel. 3857049, 3810291-94

Speakers for Seminar on Use, Analysis and Application of Small-area Statistics

No	Time	Speaker	Title	Topic	Duration (minutes)
0	08:15 – 09:00	Registration			45
1	09:00 – 09:10	Rusman Heriawan , Dr. Director General, BPS	Opening Remarks from Director General BPS-Statistics Indonesia		10
2	09:10 – 09:20	Hiroyuki Katayama , Deputy Resident Representative, JICA	Remarks from Deputy Resident Representative of JICA		10
3	09:20 – 09:50	Coffee Break			30
4	09:50 – 10:10	Muljono Muah , Drs., MA, Deputy Director General, for Methodology and Statistical Information	Development of Information System of Small-area Statistics	Four types of Small-area Statistical Databases to be developed in BPS will be explained	20
5	10:10 – 10:30	Chairil Anwar , Dr., IPB	Small-area Statistics used in Bogor Agriculture Institute	Small-area Statistics used in Bogor Agriculture Institute will be introduced.	20
6	10:30 – 10:55	Akihito Ito , JICA Expert, Statistical Data Processing	Preparation of the Grid Square Statistical Data in Indonesia	The methods of preparing the Grid Square Statistical Data in Indonesia will be introduced.	25
7	10:55 – 11:20	Yasuko Hayase , Dr., JICA Expert, Local Population Statistics	Population Structures observed by Small-areas in Indonesia	Features of population structures such as sex and age observed in Small-areas, or Kabupaten, Kecamatan, Desa, and Grid Squares will be disclosed	25
8	11:20 – 11:45	Takashi Abe , Dr., JICA Expert, Statistical Cartography	Role of Statistical Maps based on Small-area data in Indonesia	Roll and utility of statistical maps based on Small-area data in Indonesia are discussed	25
9	11:45 - 12:10	Atsushi Otomo , Dr., JICA Expert, Small-area Statistical Analysis	Use and Application of Small-area Statistical Analysis	Usefulness of small-area statistics will be introduced by examples of delineating market areas and deciding location of public facilities	25
10	12:10 – 13:00	Discussion			50
11	13:00 – 14:15	Lunch
